

ABOUT US

THE EARTH INDIA COMPANY is the one stop complete solution provider for the vast array of belts used across various industries. One of the leading distributors and associated with the leading brands from across the world, THE EARTH INDIA COMPANY has created its own impact, THE EARTH INDIA COMPANY covers a versatile variety of power transmission, conveyor & coating belts covering all globally acknowledged safety parameters; all under one umbrella. We ensure outstanding quality and wide range of products uniquely suiting your application. Our company promises fast delivery and single point availability. We have the proud privilege of catering to the esteemed industries. Our main objective is customer satisfaction and this is our biggest gain. Our innovation, research has brought us persistent success. Our company is gaining a fast popularity. We believe not only in catering the products but providing a complete comprehensive solution and complete maintenance. We are highly specialized in new OEM development. We ensure the customers an excellent after sales support.

CEO: Mr. Navneet S Jain, holds MBA degree from Jamnalal Bajaj institute, Mumbai, India. He holds a wide and varied experience in the manufacturing and marketing of belts. Mr. Jain, the mentor of the ever-growing THE EARTH INDIA COMPANY, has achieved enormous success in his field and he is skillfully fostering his team of professionals towards excellence. The Earth India Company is fervent about technology to increase not only the productivity but also the competence by using the best available across the world.

THE EARTH INDIA COMPANY FOR A COMPREHENSIVE BELTING SOLUTION.

Quality Policy:

We are an ISO 9001:2015
certified company.

OUR STRENGTHS:

- High Quality & Customized Products
- Wide Range of Products
- Excellent After Sales Support
- Competitive Prices
- Fast and Timely Delivery
- Latest and Most Innovative Technologies
- Single Point Availability

WE CATER TO VARIOUS INDUSTRIES:

- Textile
- Ceramic & Glass
- Agriculture
- Rolling Mills
- Power Generation
- Tyre & Automation
- Rice Mills
- Pharmaceutical
- Government Sector
- Paper
- Machine Tools & Engineering
- Iron & Steel
- Mining
- Printing & Packaging
- Marble & Stone
- Food & Confectionary

OUR PRODUCTS:

TRANSMISSION BELTS:

The Earth India Company provides a vast range of Transmission Belts. These belts are manufactured using finest quality materials. These are used in coarse conditions for transferring heavy loads, these belts have excellent elasticity and work without any noise. We offer a wide range of power transmission belting products like:-

- VEEBELT
- TIMING BELTS
- VARI SPEEDBELT
- POLYV-BELT
- POLYMAX
- MULTIRIB V
- PU TIMING
- PUVEE AND PU ROUND BELTS
- SPECIAL COATING BELTS etc.

FLAT TRANSMISSION BELTS:

- Nylon Sandwiched belts
- Tangential Belt – Polyester Cord Belt
- Spindle tapes

THE EARTH INDIA COMPANY OFFERS A COMPREHENSIVE RANGE OF CONVEYOR BELTS

➤ Heavy Duty Fabric Conveyor Belt

- General Conveyor Belt
- Heat Resistant Conveyor Belt
- Oil Resistant Conveyor Belt
- Flame Resistant Belt
- Cold Resistant Belt
- Chemical Resistant Conveyor Belt

➤ Steel Cord Conveyor Belt

➤ Chevron Conveyor Belt

➤ PVC/PVG Solid Woven Belt

➤ Special belt

- Side wall Conveyor Belt
- Elevator Belt
- Endless Belt

➤ Rough Top Conveyor Belt

➤ PVC/PU/PE Conveyor belts

- Cleated / Side wall Corrugated belts
- Modular Plastic Conveyor Belt

PRODUCT DESCRIPTION

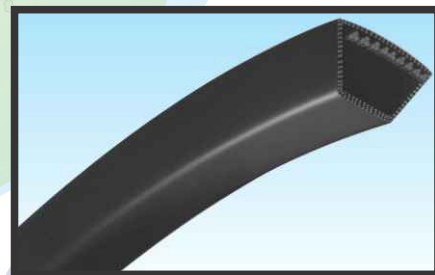

CLASSICAL VEE BELT

Classical Vee Belts are most widely used power transmission belts. Economical and easily obtained for replacement.

Sections :

Wrapped (M / A / B / C / D / E)

Raw Edge Cogged (AX / BX / CX)

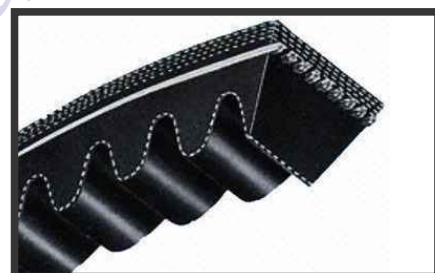

WEDGE VEE BELT

Wedge Vee belts enable space saving and high speed drive, and reduce operating and maintenance cost. And it features oil and heat resistant, static conductive properties.

Sections:

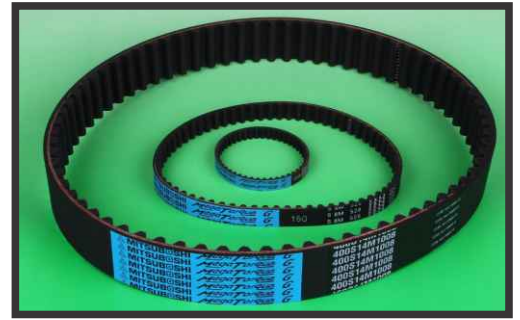

Wedge (SPZ / SPA / SPB / SPC)

Wedge Cogged (XPZ / XPA / XPB / XPC)

RUBBER TIMING BELTS

We provide complete range of quality synchronous rubber timing belts suitable for numerous conveyor & processing applications. From transforming power to lifting your product, timing belts meets precision solution for synchronized conveying, positioning & Power Transmission

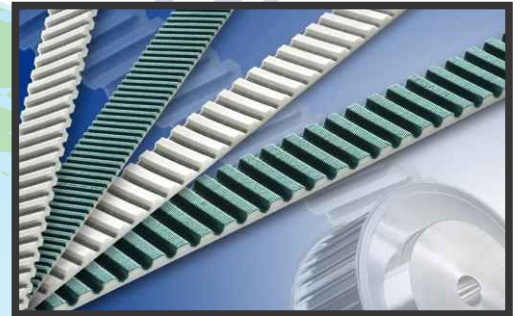

TYPES:

We offer wide range of Timing Belts:

MXL	XL	L	H	XH	XXH	HTD2M	HTD 3M	HTD 5M	HTD 8M	HTD 14M	HTD 20M	STS S2M	STS S3M	STS S5M	STS S8M	STS S14M
						RPP 2M	RPP 3M	RPP 5M	RPP 8M	RPP14M	T 2.5	T 5	T 10	T 20		

PU TIMING BELT :

Polyurethane timing belts are applied for high load and resistance uses. The high quality polyurethane gives very good abrasion and shear resistance, it is pooled with a variety of graded steel cords, safeguarding high strength and tractive resistance.

The following features are available:

Products:

Linear or Endless Joint.

Pitches :

Torque(Real Endless)

Metric Pitch : T10, T2

Tension Cords

HTD 8M, HTD14M. Inch Pitch: L,H.

Special Surface Finish

Stainless Steel. Kelvar.

Nylon Fabric on tooth side(PAR)

Nylon Fabric on backside (PAZ)

Nylon Fabric on bothside (PAR/PAZ)

Customized

Cleats, Vee-Guides.

SPECIAL COATING BELTS:

We process and supply the special type coating on Rubber & PU Timing Belt, Flat & Conveyor belts as per customer requirements and application. Specially used in Packing, Printing, labeling, Corrugated industry, Bottle industry, Glass Processing, Food & Pharmaceutical industry etc.

FLAT TRANSMISSION BELTS:

Owing to rich industry experience, we are presenting an excellent quality range of flat sandwiched belts, Nylon-sandwiched flat Belts, Tangential Belts and Spindle Tapes, to our patrons.

PU VEE & ROUND BELTS:

With years of experience in the domain, we are able to offer a huge assortment of PU Round & VEE Belts, available with reinforced chords.

Available in the die of 2 to 25mm.

CONVEYOR BELTS:

We offer qualitative, comprehensive range of Conveyor Belts. We offer what nobody else does, for we believe in constant innovation to help you convey better. We offer a comprehensive range of conveyor belts for critical and supercritical applications of all grades and specification for your special needs.

GENERAL CONVEYOR BELT:

We offer superior quality Conveyor belts made from technologically superior rubber compounds with better ageing characteristics available in a variety of grades; carcass available in both. Nylon or Polyester Fabric, EP. We are manufacturing, supplying and exporting general purpose rubber conveyor belts of premium quality which are used frequently for various industrial purposes. These are made from high grade materials that ensure high durability, good trough ability and flexibility.

HYGIENIC CONVEYOR BELT:

We offer superior quality Hygienic Conveyor Belts, that are manufactured using high grade material and advance technologies that guarantees resistance in adverse conditions. We customize these conveyor belts as per the requirement of clients. The belts are highly durable and reliable.

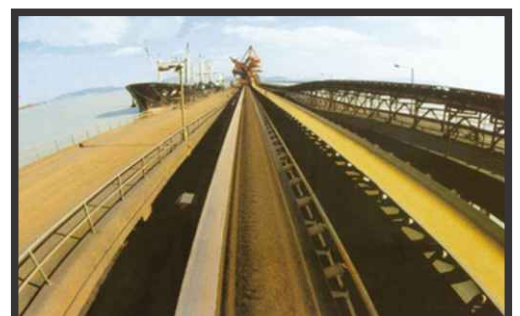

HEAT RESISTANT CONVEYOR BELT:

The Heat resistant conveyor belts are suitable for high temperatures. The rubber compound used in the cover has been designed to avoid premature aging due to contact with any source of heat. The belt is made with extra care after mixing rubber with high temperature resistant materials, assembling and vulcanizing.

OIL RESISTANT CONVEYOR BELT:

Oil resistant belts are compounded of oil resistant synthetic rubber that has a good resistance to the damaging effects that can come across when conveying oil infected or treated materials.

FLAME RESISTANT BELT:

The product is made of cotton canvas, nylon canvas or EP canvas suitable for conveying materials that are flame resistant and can be used in power, chemical, light, and grain processing industries, under the condition of inflammable surroundings.

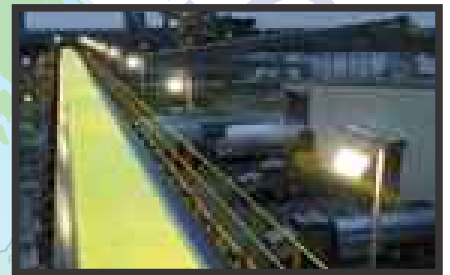

COLD RESISTANT BELT:

The belt can be supplied in cotton canvas, nylon canvas or EP canvas as carcass, Cover rubber has high elasticity, shock resistance, cold resistance etc. It is suitable for conveying materials out door in freezing area, cold storage, etc.

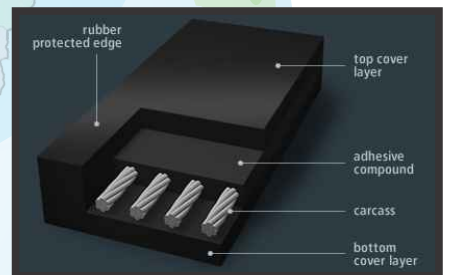

CHEMICAL RESISTANT CONVEYOR BELT:

Our high quality chemical resistant conveyor belts are designed according to the international standards and the specific requirements of clients. We use high quality raw materials which makes them durable and provide them long life. The belts are highly Durable and have easy maintenance.

STEEL CORD CONVEYOR BELT:

It is used in coal, ore, port, metallurgical, power and chemical industries, suitable for long Distance and heavy load transportation of materials. The belt is fire-resistant, Cold-resistant, Abrasion-resistant, Heat-resistant and Chemical-resistant.

CHEVRON CONVEYOR BELT:

Chevron conveyor belt is suitable for conveying movable, massive or bagged materials on inclined surface at angles of less than 40 degrees inclination.

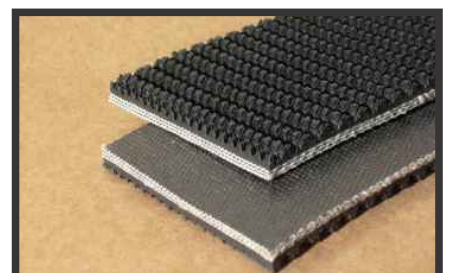

FEATURES:

Antislit, cleats and top cover rubber are vulcanized integrally. Cleat patterns and pitch are designed elaborately clean pattern ranges conveyor belts with close V type, open V type and Y type.

ROUGH TOP CONVEYOR BELTS:

We offer Rough Top Conveyor Belts originally designed for the distribution of light weight goods, fragile or deformed materials and packed goods, like papers, bags, glasses, boxes, cartons, etc.

SIDEWALL CONVEYOR BELT:

Sidewall conveyor belts can be used for horizontal, sloping or vertical conveyance, it is one of the most effective ways of elevating materials in a confined space. The economy is achieved by single belt operation, wide range material can be handled, less space and requirement, no transfer point, low maintenance and big capacity.

HOT VULCANIZED ENDLESS BELTS:

Endless belts are made in our state-of-the-art, hydraulic press, by the process of hot vulcanizing.

PVC/PU/PE CONVEYOR BELTS:

We offer high grade quality PVC/ PU/PE Conveyor Belt. We are suppliers for hygienic food grade conveyor belts for food processing, bakery and confectionary, meat and poultry etc. These belts are approved for direct connect with food products and are highly durable as well as efficient.

Material: PVC/PU/PE.

Thickness: 0.8-9MM

Plies: 1,2,3,4, Woven and Felt.

Color: White, Green & Black.

Surface Pattern: Matt, Glossy, Inverted Diamond, Rough Top, Dotted, Basket Weave, Coarse Textured, Longitudinal Groove, Rhomboid, Saw Tooth, Felt, Horse Shoe Cleated etc.

SPECIAL CLEATED CONVEYOR BELT:

We offer Conveyor Belt with side wall and cleats, that are custom-designed, developed and fabricated as per the specific application, demands of our customers.

PLASTIC MODULAR LINK BELTS:

We offer top brands of modular plastic conveyor belts. we offer the most flexible modular plastic belts. modular belts are naturally available in the traditional material. All standard materials are FDA approve for direct food contact.

Poly Ethylene (PE)

Poly Propylene (PP)

Poly Acetal (POM)
